

THE FEDCAP GROUP Pride in pioneering social enterprise

Founded on principles of work, dignity and economic independence for the disabled, The Fedcap Group asked CG to highlight their transformative accomplishments over their remarkable 89-year history.

CG developed a timeline installation for FedCap's New York offices that outlines 3 major phases in their growth and development. At over 20 feet in length, the exhibit highlights the pioneering work and impact of Fedcap's portfolio of companies. Archival and modern photographs along with press coverage combine to show an organization that has always been ahead of its time, both in philosophy and programming.
